page which looks like this page...  
with the latest book pictured...

look **UNDER** the Tipster book...

Click “**Open Publication**” below the book

This opens the Tipster Newsletter.

## New features:

Allow you to go from page to page just as you would browse a magazine by clicking the arrow to the right of the book.

Click on the page for a larger view.

Without clicking, move your mouse around to scroll in the larger view.

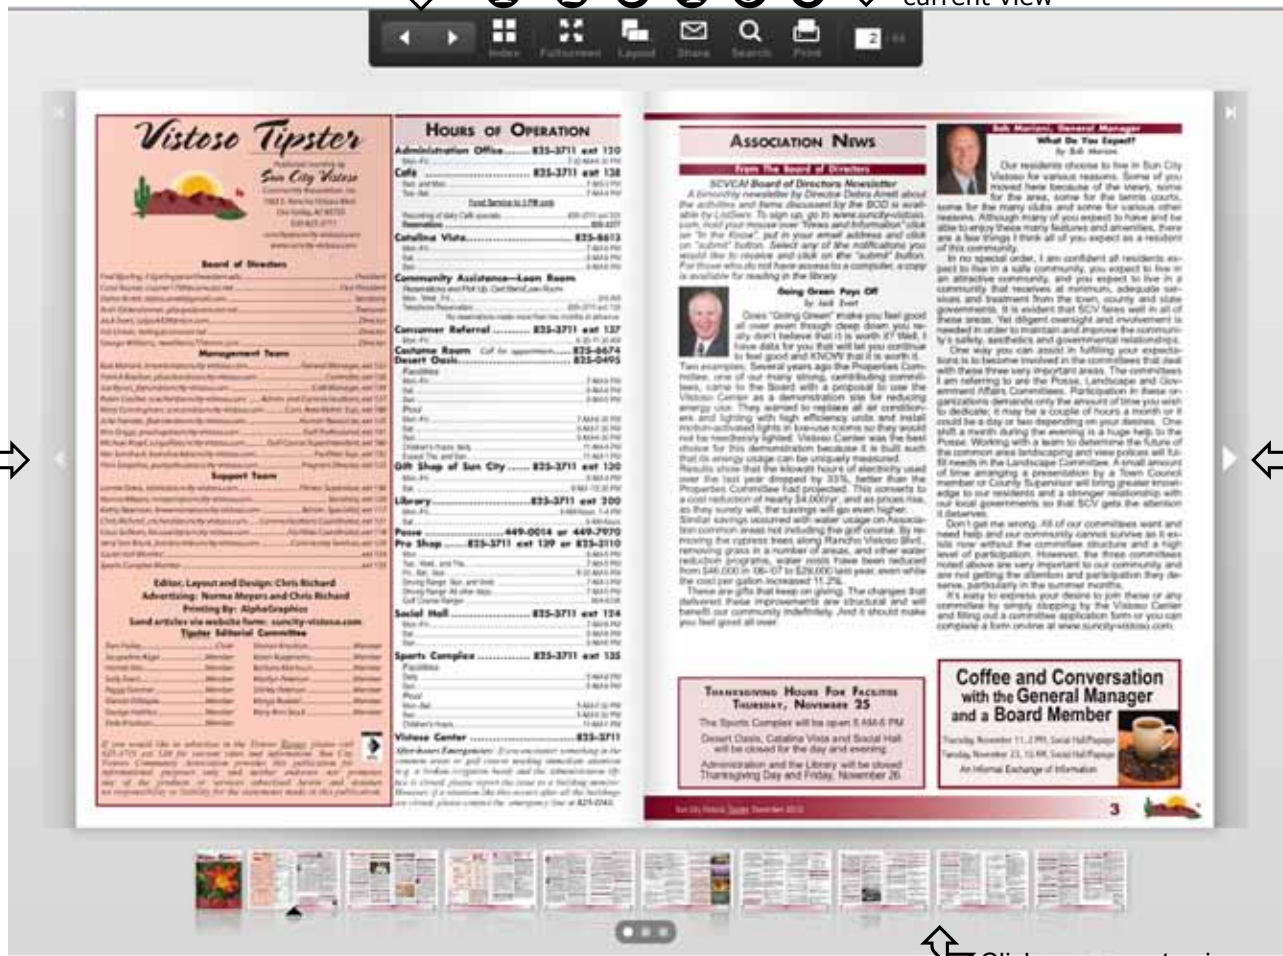

Click on a website listed in any article and you will be directed to that site (you might need to enable your browser to allow pop-ups from this site for this to work.)

After you close the site you just opened the book will still be open to the page you were on.  
Click on it to bring it up in size.

## The TOOL BAR at the top

Move pages forward or back

Indicates page # current view

**1 Index** - Shows all the pages of the book for a complete overview.

**2 Full screen** - Large view. Click again and you'll get a really big view of the page. Without clicking your mouse, move it around for navigating the page. Click your mouse and the page goes back to initial view. To close this view hover your mouse at the top middle of the magazine and click on the **X**.

**3 Layout** - Gives you 3 different views

- **Magazine:** two pages open at a time, as a traditional magazine would be opened.
- **Presentation:** one page at a time. Click on it and it gets bigger. Again you can move around it with your mouse.
- **Paper View:** entire book single page at a time. Very much like the way our PDF used to look before we went to the flipper program.

**4 Share** - Allows you to email the book to friends and family. Please take a moment and share the Tipster with your friends. Word of mouth is the most powerful advertising tool for SCV.

**5 Search** - Click on the magnifying glass and type in the a search. Lets say you want to find the Tennis article for this month. Put in Tennis and it will bring up each instance of Tennis in the book. Maybe it will find Table Tennis but you wanted the Men's and Women's Tennis, just click on the right blue arrow and it will take you to the next instance of that word in the book. To close click on the **X**.

**6 Print** - Allows you to print right, left or both pages. So far we have found you can print two pages at a time, not the entire book at a time.

We do hope you try out some of these features, explore a bit and learn what you can do with this. It is really pretty fun! Enjoy
